SPECIALISTS IN AEROSPACE METALLURGICAL PROCESSES \$ VACUUM & ATMOSPHERE BRAZING & HEAT TREATING

---

1 BIDWELL ROAD, SOUTH WINDSOR, CONNECTICUT 06074 PHONE 860.528.9239 FAX 860.291.9939 E-mail [info@owheattreat.com](mailto:info@owheattreat.com)

O&W Heat Treat, Inc., is committed to ethical sourcing practices and supports the objectives of Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act regarding conflict minerals.

As a heat-treating facility specializing in thermal processing and brazing operations, O&W Heat Treat, Inc., does not directly source, mine, or refine conflict minerals. Our operations may utilize brazing alloys and materials that can contain tin, tungsten, tantalum, or gold (3TG). These materials are purchased exclusively from established, reputable suppliers.

O&W Heat Treat, Inc., relies on our suppliers to source materials responsibly and to comply with applicable conflict minerals regulations. We expect our suppliers to conduct due diligence on their supply chains and to provide conflict minerals information upon request, including the use of Conflict-Free Smelter Program (CFSP) or Responsible Minerals Initiative (RMI)–conformant smelters where applicable.

Based on our position in the supply chain as a downstream processor and service provider, O&W Heat Treat, Inc., does not have direct visibility into the origin of minerals used in supplied materials. However, we will cooperate with customers and suppliers in good faith to support conflict minerals reporting requirements and to provide relevant declarations or documentation as reasonably available.

O&W Heat Treat, Inc., remains committed to continuous improvement in supply chain transparency and responsible sourcing practices.

O&W Heat Treat, Inc.

Ali N. Platon  
President
